

# Bar Charts and Line Graphs

4

Cara and Rav went birdwatching at a nature reserve. They recorded the number of birds they each saw at three locations on the bar chart below.

At which location did Cara see more birds than Rav?

1 mark

How many birds did Rav see in total?

1 mark

5

This graph shows the average monthly temperature in Noldon over a year.

What is the difference in temperature between the warmest month and the coldest month?

1 mark

"I can read line graphs. I can solve problems using data from line graphs and bar charts."
